✓ available from stock • can be ordered *Metric sizes are available to order throughout our ranges

PRE-FINISHED: Doors that are ready painted or varnished.

UNFINISHED: Doors that are prepared ready for a top coat finish eg. varnish or paint.

PRIMED: Doors that have been prepared with an undercoat ready for a top coat finish.

SOLID CORE: A heavy and solid centre to a door, it is normally made from wood-based timber components.

SEMI-SOLID CORE: The centre of the door is part solid and part cellular components.

STANDARD CORE: Standard core doors have a cellular structure inside the door. This means that the door is lighter in weight than solid or semi-solid core doors and is well suited to domestic use.
