

TRADE ESSENTIALS

JBKind
DOORS

www.jbkind.com

Making door purchases easy for the trade

Packed full of our most popular door designs and commodity products, the Trade Essentials brochure is a quick and easy reference guide.

Everything is at your fingertips – from on-trend Urban Industrial and Laminate doors; to popular oak and white styles; to paint grade, softwood boarded and weather resistant External Extreme doors.

Check out our PAS 24 Security Doorset and FD30 Glazing services, as well as pre-assembled easy to install pocket door systems and great value door handle packs.

Don't forget to ask your local merchant for details of our latest deals!

Did you know, this year we're celebrating a special anniversary – 40 years since we started selling doors!

For more information, call JB Kind's Sales team on **Tel: 01283 554197** or log on to **www.jbkind.com**

Door Visualiser

Helping your customers to make their door choices

The UK's first online door visualisation tool is exclusive to JB Kind! Let your customers try out more than 70 of our most popular door designs in a choice of room settings, changing the wall colour and flooring to suit their own personal taste.

The perfect way to try before you buy!

ACOUSTIC

SMOKE
CONTROL

www.jbkind.com

Suitable for flat and apartment entrances, JB Kind's PAS 24 security fire doorset service is tailored to each project's specific requirements. Door design choices are flexible with a selection of veneered, painted and primed finishes, available as plain flush or with various grooved design options.

All fire doors are third party Certifire approved by Warringtonfire with a fire rating of 30 minutes, EI30. As an additional benefit, the doorsets have also been successfully tested for both acoustic and smoke control.

The PAS 24 security fire doorsets are supplied pre-hung, complete with high quality fully tested ironmongery.

If you have an enquiry or would like to find out more about JB Kind's PAS 24 Security and/or Internal Doorset services please visit jbkind.com or contact our Sales team on **01283 554197** or info@jbkind.com.

Plus, we can supply standard internal doorsets to match your security entrance doors!

POCKET DOOR SYSTEMS

Key features:

- Fitted in half the time of other brands.
- Designed for stud and plasterboard.
- The internal pocket cavity is protected by a cover during installation.
- Door is fitted after all installation and decoration has been completed, avoiding any potential damage to your door.
- Door choice can be changed in the future without structural alteration to the wall.
- Gives a finished wall thickness of 125mm.
- Suits door thickness 35mm.
- Maximum door weight 80Kg.
- Compatible sliding door hardware available.
- Available in single and double format.

Single Pocket Door

Single Pocket Door System

Code	Door Size (mm)	
	Width	Height
POCSYSSGL686	686	1981
POCSYSSGL762	762	1981
POCSYSSGL838	838	1981
POCSYSSGL915	915	1981

Double Pocket Door*

Double Pocket Door Conversion Kit*

Code	Single Door Size (mm)	
	Width	Height
DBLLEAFKIT686	686	1981
DBLLEAFKIT762	762	1981
DBLLEAFKIT838	838	1981
DBLLEAFKIT915	915	1981

See website for full sizing guide.

*For a double pocket door you will need to purchase two single pocket door systems and a double leaf conversion kit.
eg. 2 x POCSYSSGL686 and 1 x DBLLEAFKIT686

Door Grooving

The bottom edge of the door will need to be grooved to fit in the floor guide. If required, JB Kind's in-house joinery workshop can pre-groove doors prior to delivery, for a small charge.

Timber Accessory Kits

Accessory Kits are required to complete pocket door installation. Available in either white primed or varnished oak.

Single pocket door kit
(shown in oak)
Includes: 2 x cover moulds with brush seals, header cover and jamb with seals

Double pocket door kit
(shown as white primed)
Includes: 4 x cover moulds with brush seals and 2 x header covers

Finish	Door Size	Timber Accessory Kit Code
White primed	Single	SGLWPRIAC
White primed	Double	DBLWPRIAC
Oak varnished	Single	SGLVOAC
Oak varnished	Double	DBLVOAC

Additional Accessories

	Code

Automatic door closer	ACLOSER
Flush Door Pull Pack (satin stainless steel, includes 2 circular flush pulls and a round finger pull for the door edge)	CIRCPULL
Bathroom Door Hook Lock Pack (satin stainless steel, includes turn and release, hook latch, adjustable keep and finger pull)	CIRCBATHLOCK

What makes our Veneered Flush range great value?

Constructed with a full timber frame (unlike alternatives on the market) both our standard and **FD30** veneered flush doors are manufactured to a higher standard, plus they are priced more competitively.

Veneered Flush **FD30** Fire Door Construction

Veneered Flush Standard Door Construction

Flax board core

Hardwood lippings to both long edges

Double pine framing to leading and top edges

Wood veneered MDF facings

Option for PAS 24 fire resistant flat entrance door sets, see pages 4-5.

Bespoke options:

FD30 glazing service, special sizes and alternative veneers are available to order.

FD30 GLAZING SERVICE

Glazed FD30 & Part M (mobility) compliant options

Any of our Warringtonfire Certifire certificated flush door designs can be adapted into an apertured fire door. Our in-house service is prompt and economical, guaranteeing correct assembly. Flush doors with FD30 apertures must be supplied ready glazed to comply with our Certifire certification. Aperture cutting by a third party may invalidate the original door certification.

Part M Mobility

Building Regulations Part M dictates the requirements for glazed doors in specific locations. The diagram offers general guidance but for specific information, please check the Building Regulations.

Please check current building regulations

More aperture dimensions are available, please contact us with your requirements.

Do you need FD30 glazing?

SOFTWOOD BOARDED EXTERNAL

External boarded doors and gates, prepared ready to finish

Manufactured to a high standard, but not recommended for use externally where exposed to central heating on the inside.

It is essential these doors are thoroughly painted prior to exposure to the weather in accordance with our door care advice. Face knots should be sealed prior to painting to prevent resin bleed, which can result where exposed to ultra violet light. Screw or staple holes will need filling prior to decoration.

EXTERNAL EXTREME

Our External Extreme doors have revolutionised the replacement front door market!

Constructed with an exceptionally durable and dimensionally stable top layer of MEDITE®TRICOYA®EXTREME and sealed with a factory applied paint finish, ensuring that the doors can withstand all weathers – and to illustrate just how confident we are, we issue every External Extreme door with a 10 year guarantee!

All External Extreme doors are:

- Weather resistant
- Supplied with a 10 year guarantee
- Suitable for fitting in a day!
- Supplied with a weather bar
- Perfect for over painting

Recommended by Roger Bisby,
see installation video at
www.youtube.com/c/JBKindLtd

Traditionally used for cladding and facias, MEDITE®TRICOYA®EXTREME's hard-wearing and weather resistant properties make it perfect for use within the structure of external doors.

DURABLE
Longer lasting, perfect for external use.

RESISTANT TO FUNGAL DECAY
Effective barrier to fungal decay.

SUSTAINABLY SOURCED
FSC® Certified. Wood used from sustainable sources.

ENHANCED STABILITY
Swelling and shrinking dramatically reduced.

LOWER MAINTENANCE COSTS
Extended periods between exterior coatings maintenance.

PERFECT FOR COATING
Improved stability and durability enhances service life of the coating. Damaged coating will not affect the core.

Colour Options Paint Service

Let us take the hassle away and arrange for your doors to be professionally spray painted prior to delivery. Just tell us your preferred RAL Classic colour and we will do the rest.

A selection of our White Primed doors are suitable for this service – look out for the  icon.

Note: A minimum order quantity applies.

For a perfect finish...

Applying a quality finish to your internal doors ensures their long term appearance and performance.

We recommend the following products that have been tested on our unfinished oak internal doors with excellent results.

For more information and to purchase directly, please refer to www.wood-finishes-direct.com

All-in-one solvent based hard wax oil

Clear, water based acrylic varnish

Door size conversion chart:

A little help if you need to work out the metric and imperial equivalent for door sizes.

Height & Width

Metric (mm)	Imperial (inches)	Imperial (feet & inches)
1981 x 457	78" x 18"	6'6" x 1'6"
1981 x 533	78" x 21"	6'6" x 1'9"
