

FD30 GLAZING SERVICE

Glazed FD30 & Part M (mobility) compliant options

Any of our Warringtonfire Certifire certificated flush door designs can be adapted into an apertured fire door. Our in-house service is prompt and economical, guaranteeing correct assembly. Flush doors with FD30 apertures must be supplied ready glazed to comply with our Certifire certification. Aperture cutting by a third party may invalidate the original door certification.

Part M Mobility

Building Regulations Part M dictates the requirements for glazed doors in specific locations. The diagram offers general guidance but for specific information, please check the Building Regulations.

Please check current building regulations
