

# Certifire – Explained

## Third-party Certification:

Certifire is an independent, UKAS-accredited scheme that provides third-party certification for fire protection products, including fire doors.

## Fire Doors:

Certifire verifies that the door, frame, hardware, and intumescent seals are tested and perform together as a complete, fire-resisting assembly.

## Compliance:

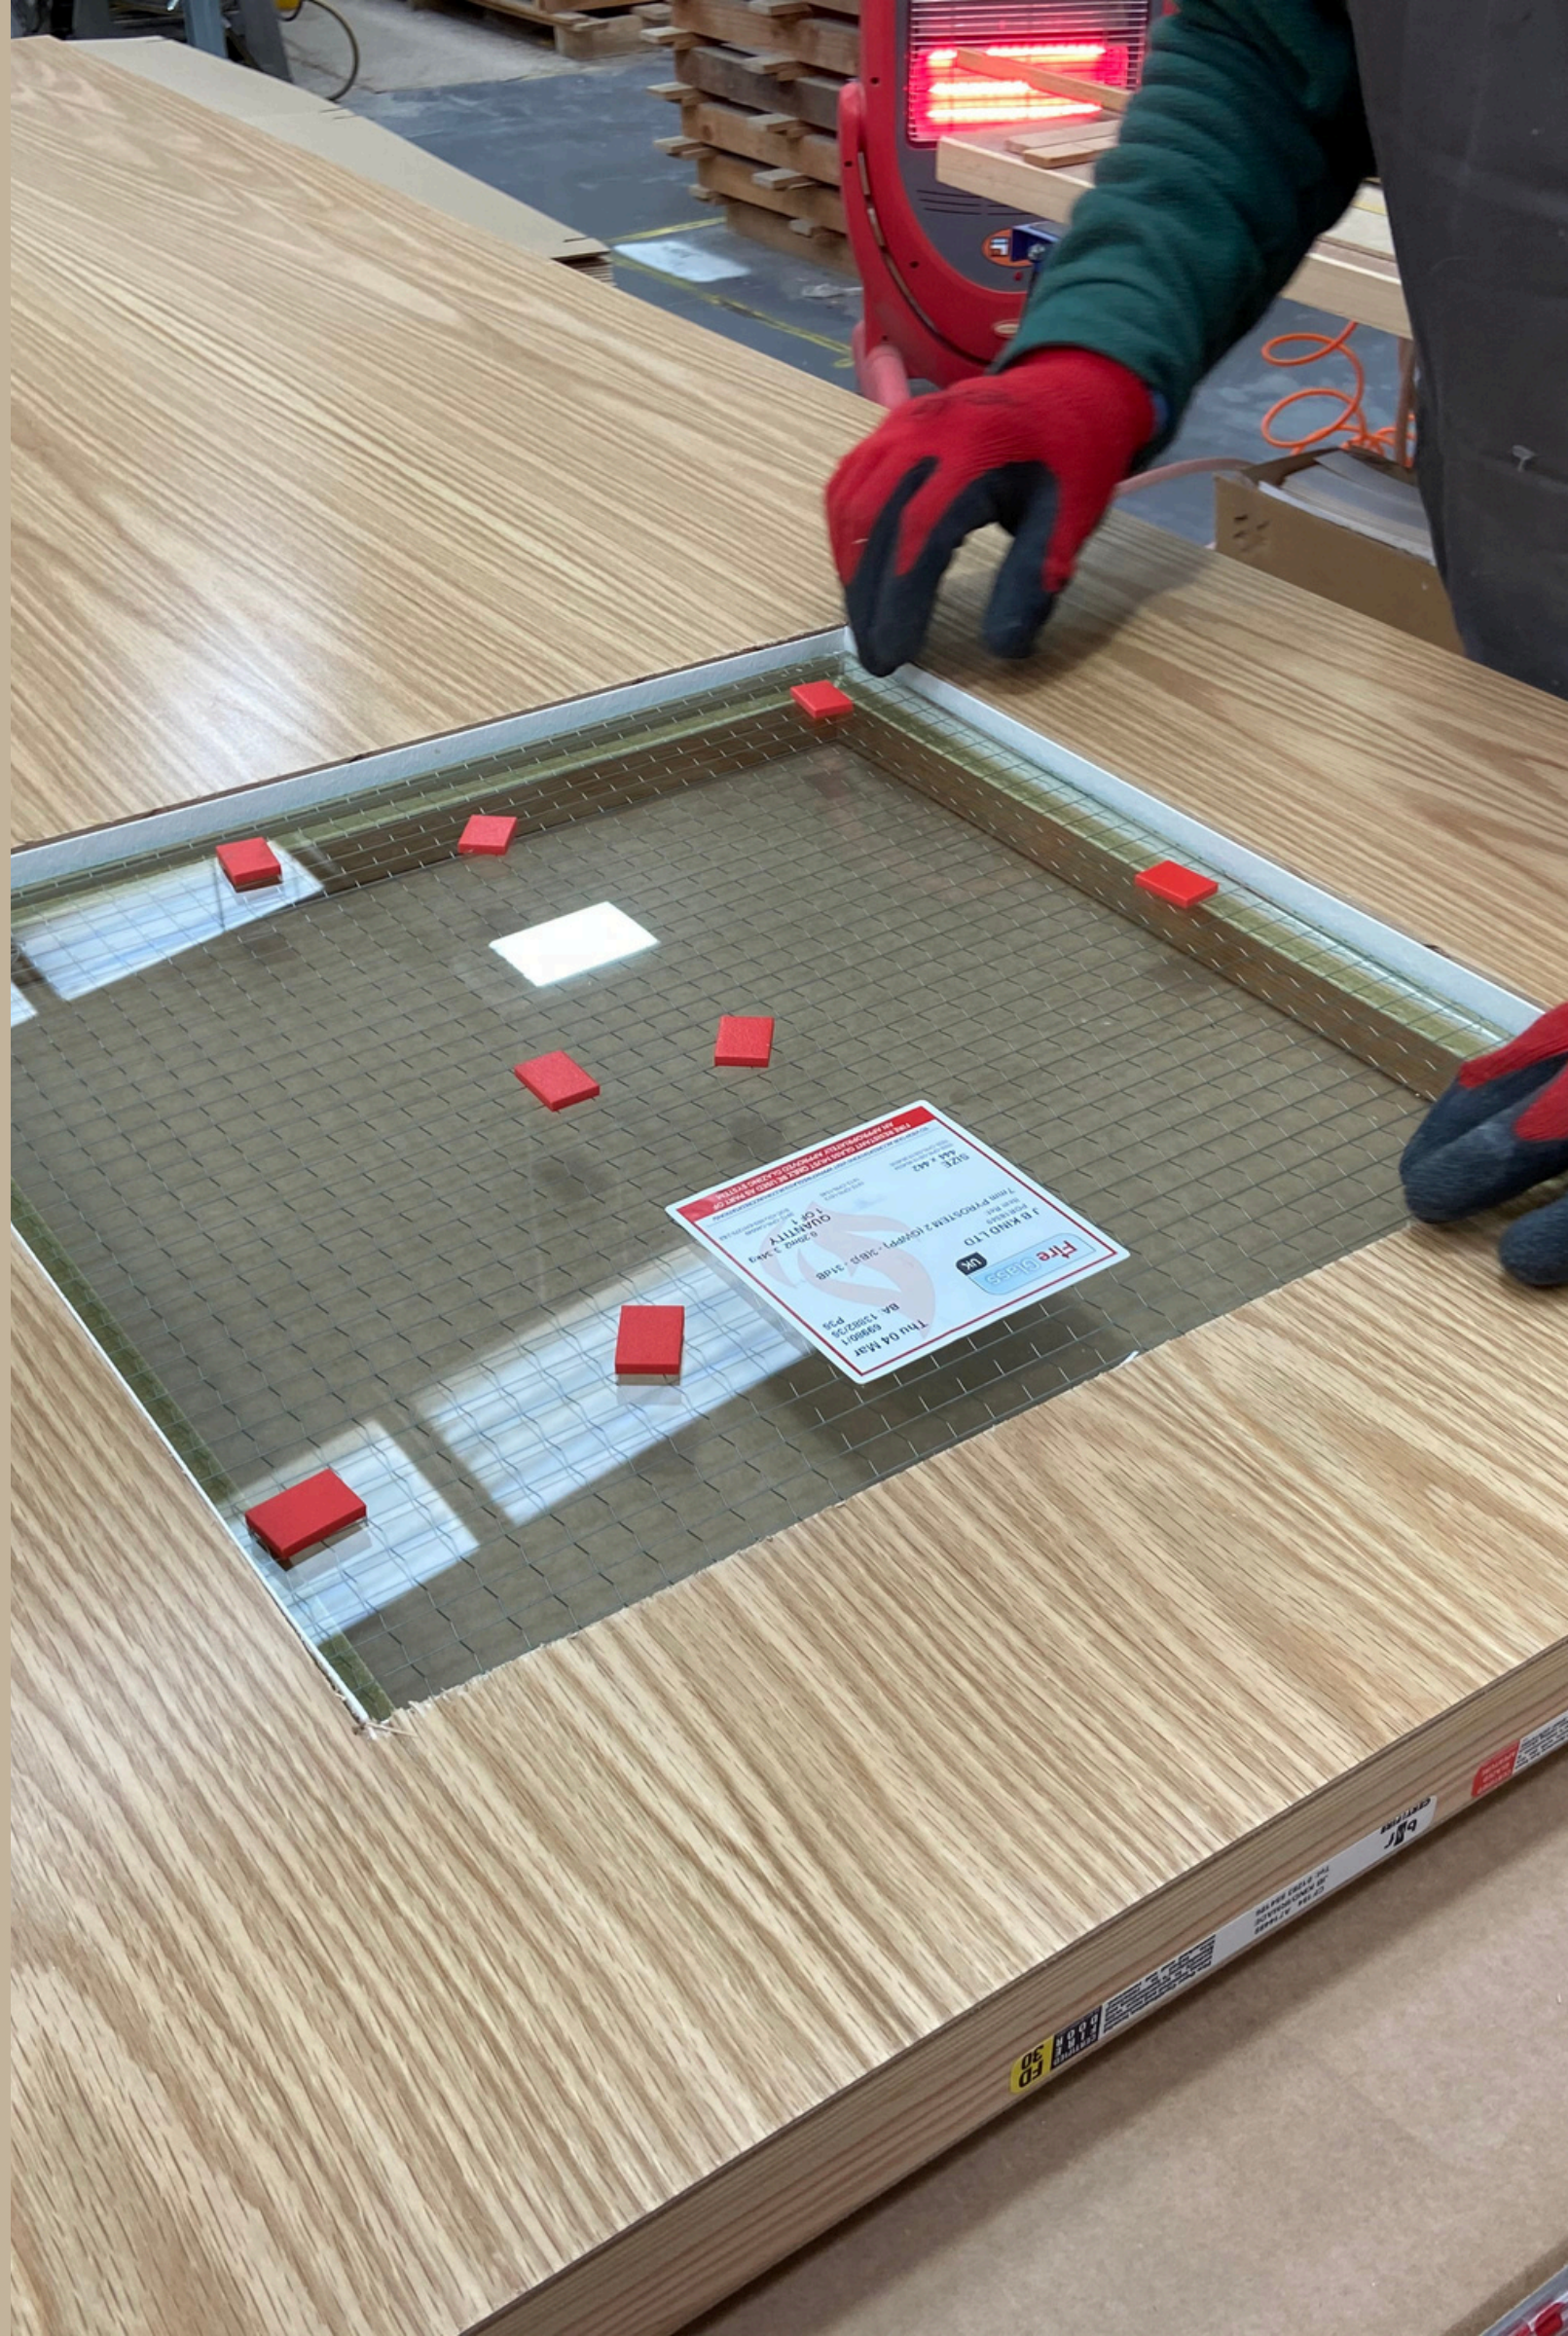

Products under Certifire certification meet rigorous performance, quality, and traceability standards - supporting compliance with Building Regulations and fire safety legislation.

## Auditing:

Certified manufacturers and products undergo regular auditing and testing to maintain certification.

**Easily Identifiable:**

Certifire fire doors typically include a certification label or plug showing the scope of approval, fire rating, and manufacturer details.

## Trusted:

Specifiers, contractors and building owners have the confidence that the fire doors will perform as intended in a fire - saving lives and protecting property.
